

Dehydrated White Onion

Premium Dehydrated White Onion Supplier & Exporter from India

Dehydrated White Onion is a convenient and versatile food ingredient for commercial kitchens, food manufacturers, seasoning businesses, and international B2B buyers.

Sourced from India, our dehydrated white onion range is available in multiple forms, including **flakes, chopped 3–5 mm, minced 1–3 mm, granules 0.5–1 mm, and powder 80–100 mesh.**

With different particle sizes available, buyers can select the format that best suits their food preparation, seasoning, sauce, soup, ready-to-eat, and other food manufacturing applications.

Dehydrated White Onion for Food Manufacturing & B2B Applications

White onion is widely used as a culinary ingredient for its distinctive onion flavour. Dehydrating white onion provides a convenient format that can be stored and incorporated into a variety of food preparations without the preparation associated with fresh onions.

Our range is available in different forms and particle sizes to meet different application requirements.

It is suitable for:

- Food manufacturers
 - Seasoning manufacturers
 - Spice-blend companies
 - Soup and sauce manufacturers
 - Ready-to-eat food manufacturers
 - Ready-to-cook food businesses
 - Food-service companies
 - Commercial kitchens
 - Importers
 - Distributors
 - Wholesale buyers
-

Available Dehydrated White Onion Forms

SevenKNC Global Exim offers dehydrated white onion in multiple commercial forms:

Form	Size / Specification	Suitable Applications
White Onion Flakes	Flakes	Soups, stews, sauces, marinades, rubs, salads and food preparations
White Onion Chopped	3–5 mm	Soups, casseroles and commercial food preparation
White Onion Minced	1–3 mm	Soups, stews, gravies, sauces and food formulations
White Onion Granules	0.5–1 mm	Soups, stews, sauces and seasoning applications
White Onion Powder	80–100 Mesh	Soups, marinades, seasonings, roasted vegetables and food formulations

The available forms and particle sizes are specified in the supplied White Onion catalog.

Dehydrated White Onion Flakes

The catalog identifies applications including **soups, stews, sauces, marinades, rubs, roasted vegetables, salads and dips**.

The flake format is particularly useful when the application calls for a more noticeable onion piece rather than a finely ground ingredient.

Applications of Dehydrated White Onion

Dehydrated white onion can be incorporated into a broad range of food applications.

Soups & Stews

Flakes, minced, granules and powder can be used in different soup and stew formulations.

Sauces & Gravies

Minced, granules and powder formats are suitable for sauce and gravy applications.

Seasoning & Spice Blends

Finer forms such as granules and powder can be incorporated into seasoning and spice formulations.

Marinades & Rubs

White onion flakes and powder can contribute onion flavour to marinades and dry rubs.

Ready-to-Eat & Ready-to-Cook Foods

Dehydrated white onion can be incorporated into prepared food products and commercial food formulations.

Snacks & Savoury Products

White onion powder and finer particle forms can be used as ingredients in seasoning applications.

Food-Service & Commercial Kitchens

The different forms provide flexibility for professional food preparation and commercial kitchen applications.
