Why Source Moringa Powder from SevenKNC Global Exim?

International buyers need more than a product—they need consistent quality, dependable supply, suitable documentation, proper packaging, and export support. SevenKNC Global Exim focuses on reliable sourcing and buyer-specific requirements for commercial and international orders.

Our B2B supply approach: Quality-focused sourcing → Specification-based supply → Suitable packaging → Export documentation → Shipment coordination

Flexible Mesh Options

Our standard 80 Mesh Moringa Powder provides a fine, consistent particle size for general commercial applications. For buyers requiring a finer powder, 100 Mesh and 120 Mesh options can be supplied on request, subject to the intended application and order requirements.

Bulk Moringa Powder Supplier from India

SevenKNC Global Exim supports bulk Moringa Powder supply for international buyers seeking an India-based sourcing partner. Our product is suitable for importers, distributors, nutraceutical manufacturers, health food companies, wellness brands, functional food manufacturers, and other B2B buyers.

Our export-focused approach is designed for buyers who value: Consistent Quality | Competitive Sourcing | Bulk Availability | Export Support | Buyer-Specific Requirements

Packaging Options

Moringa Leaf Powder can be packed according to buyer quantity, handling, transportation, and destination-market requirements. Suitable food-grade bulk packaging formats can be discussed for commercial orders. Custom packaging and private-label requirements can also be discussed for eligible orders.

Quality & Export Documentation

For international B2B orders, documentation and product compliance are important parts of the sourcing process. Depending on the destination market and order requirements, relevant documentation may include:

- Commercial Invoice
- Packing List
- Certificate of Origin
- Certificate of Analysis (COA)
- Phytosanitary documentation, where applicable
- Other export or product-specific documents as required

Specific certifications and documentation should be confirmed for each product, destination country, and shipment.

Frequently Asked Questions

What is Moringa Leaf Powder?

Moringa Leaf Powder is a finely processed botanical ingredient made from the dried leaves of Moringa oleifera. It is commonly used in food, wellness, herbal, functional food, and nutraceutical applications.
